What is neuroimaging? Sometimes epilepsy is caused by changes in the structure of the brain. These can be such things as too much spinal fluid (hydrocephalus), scar tissue, or a tangle of blood vessels (vascular malformation). Tests that can take pictures of the brain, called "neuroimaging," can tell doctors whether you have one of these conditions. Brain and Development (ISSN 0387-7604) is the Official Journal of the Japanese Society of Child Neurology, and is aimed to promote clinical child neurology and developmental neuroscience.
