FUTURE BUILDING 2019: OTTAWA . The Ontario Construction Secretariat's Future Building 2019 will take place May 14th-16th at The EY Centre in Ottawa, Ontario. Last year's event in Toronto saw more than 7,000+ students in attendance! What if every single act of design and construction made the world a better place? The Living Building Challenge is the world's most rigorous proven performance standard for buildings. Join the Build Our Future newsletter for updates on new episode releases. No other emails will be sent to this list! The Living Building Challenge is a green building certification program and sustainable design framework that visualizes the ideal for the built environment. - Building For The Future
