An excellent book which I think everybody who's at all serious about scuba diving should read during his or her first year in the hobby. More accidents happen in bathrooms than anywhere else, and no one would consider them especially dangerous or deadly places. The value in Diver Down is that it describes what CAN go wrong if rules are not observed and common sense does not prevail. Diver Down: Real-World Scuba Accidents and How to Avoid Them The recent dive fatality in Thousand Island made me dig out my bookshelves for this book to reread it again. When I first read this book a year ago I thought if I had read it before I learned to dive I would have probably refrained from taking up the sport. Note: Citations are based on reference standards.
