The Encyclopædia Britannica (Latin for "British Encyclopaedia"), formerly published by Encyclopædia Britannica, Inc., is a general knowledge English-language encyclopaedia. It was written by about 100 full-time editors and more than 4,000 contributors. The 2010 version of the 15th edition, which spans 32 volumes and 32,640 pages, was the last printed edition. This is a list of notable encyclopedias sorted by branch of knowledge. For the purposes of this list, an encyclopedia is defined as a "compendium that contains information on either all branches of knowledge or a particular branch of knowledge." For other sorting criteria, see List of encyclopedias.

Edwin Hubble: Edwin Hubble, American astronomer who played a crucial role in establishing the field of extragalactic astronomy and is generally regarded as the leading observational cosmologist of the 20th century. Learn more about Hubble and his work, including his notable research and discoveries.

History of logic: History of logic, the history of the discipline from its origins among the ancient Greeks to the present time. There was a medieval tradition according to which the Greek philosopher Parmenides (5th century bce) invented logic while living on a rock in Egypt. The story is pure legend, but it does - Encyclopaedia Of Mathematics 6 1st Edition
