How it works. Flightradar24 is a flight tracker that shows live air traffic from around the world. Flightradar24 combines data from several data sources including ADS-B, MLAT and radar data. How will you get from the Orlando airport to your Disney World resort? Thankfully, Disney has Magical Express buses (which are free!). Here's how it works. It is the search for the exit that convinces our protection system (fight/flight) that there is a problem; this causes the fight/flight to kick in to protect us from that problem. A Tiger Moth World adventure flight is an unforgettable flight experience. We've been flying the Great Ocean Road for over 29 years and have flown over 45,000 extremely happy passengers. - How It Works: The World Of Flight (how It Works)
