but thought I'd see if anyone has any ideas here. First off, apologies as I do not have the model number to hand I  
can't find the manual and I checked on the side label but there is not a clear indication of which is the model  
number. They all look like serial numbers to me so if anyone can point me in the direction of where I should be  
looking on the label for the ...With a 3 star rating, the 336kWh Liebherr integrated fridge and freezer is powerful  
and efficient. High quality unit made in Germany. Call 1800 685 899 today.They are also less expensive than  
side by side and other more stylish refrigerator types.. While bottom freezer models are slightly more expensive  
than top freezer ones, they are more user friendly, since having freezer at the bottom means no need to bend to  
reach the lower shelves.. The freezer part on the other hand is a bit harder to reach, but it is used less frequently  
anyway. - Liebherr Premium No Frost Refrigerator Manual
