"My mother inspired my career by showing me how important it is to take on passion projects and really run with them if they are a good fit. She always showed passion and drive in any project she took on, big or small. The Renaissance began to turn society toward a more humanist view of the world and encouraged scientific research and inventions that contemporary society in 2014 still relies on. Before the Renaissance, artists and authors generally focused on religious topics only and wrote for the nobility and the clergy. Now, here is where my mom became my biggest inspiration. During the first three months of Tenesha's life, doctors questioned if she would live to see the age of 1. This was heartbreaking news for my mom and the rest of us. Things were looking really bad, but my mom never lost hope. The list below selects some of the top mom bloggers today, in no particular order. ...
