Horses in the Middle Ages differed in size, build and breed from the modern horse, and were, on average, smaller. They were also more central to society than their modern counterparts, being essential for war, agriculture, and transport. Consequently, specific types of horse developed, many of which have no modern equivalent. Two woodsaws, plus a hacksaw thought to have been used for cutting metal or bone, were among the items in the Mästermyr find. The hacksaw is shown here because this same shape is used in some types of wood saw today, and it gives an idea of the range of saw types available. Small towns in Italy offer some of the best vacations you can imagine. We asked travel writers and photographers to tell us about their favorite beautiful Italian towns and villages. Prepare to want to pack your bags for Italy pronto! Le cheval au Moyen Âge est largement utilisé par l'Homme pour la guerre, le transport, et dans une moindre mesure l'agriculture. Ces animaux diffèrent par leur conformation et leur élevage du cheval moderne, et sont en général de plus petite taille. Des types spécifiques d'animaux sont développés, dont beaucoup ont disparu. - Medieval Travellers: The Rich And Restless
