

Download Psychological Aspects Of Dental Treatment Of Children

Most people suffer from a form of fear of medical procedures during their life. There are many different aspects of this fear and not everyone has every part. Some of these parts include fear of surgery, fear of dental work and fear of doctors (involving fear of needles). These fears are often overlooked, but when a patient has one to the extreme it can be very damaging to their health. Starting treatment and attending for the first time can be daunting. Please read our guide 'What does therapy involve?' which explains what to expect at your first session, what we do and hopefully will answer any queries you might have. You can find out more about the problems we can help children and young people with here. You can find out more about the therapies we offer below by ...Dr Lubna Azeem is family dentist in San Jose also serving in Santa Clara, Milpitas, Cupertino, Campbell, Mountain View, Sunnyvale and other parts of Silicon Valley.
