

# Download Workshop Manual For John Deere 2130

I overfilled backend with oil and ever since I'm getting trouble with the steering locking up and the hydraulic lift arms not lifting. When I overfilled with oil the hydraulic filter collapsed in her when I opened her off, I replaced the filter and new oil and still getting the same problem. If you have any solutions it would be very much appreciated. About Our Brooms. All brooms feature 50/50 poly wire brush segments. Bristle replacement is neat and easy. Drive motor separates from the brush core without disconnecting any hydraulic hoses, virtually eliminating the possibility of hydraulic-fluid spillage.
